Newsletter of the Naval Wargames Society

No. 177 – November 2008

Editorial

Not much in the way of news from me this month, other than to say that my long-standing project, building my wargames room, is nearing completion. The permanent table / storage unit is complete, now all I have to finish is the work bench, and gaming plus modelling can recommence!

Contributions to AGB are always welcome. "Soft copy" input via email is the preferred method of submission as it cuts down the time taken to get your piece into the newsletter considerably!

Yours aye,

DM

NWS on board HMS BELFAST

The annual Christmas event on board HMS BELFAST will be running again this year. I am informed by Simon Stokes that the theme this time around will be Convoy JW51B, with some interesting new rules in play, and 1/600 models on the table (or should that be the deck?). More details next month, but in the meantime if anyone has a burning desire to volunteer, or to know more, please don't hesitate to email either myself or Simon.

Storm Eagle Studios announces JUTLAND

Storm Eagle Studios is proud to present **JUTLAND**, sequel to its 2006 War-Game of the Year, **DISTANT GUNS**.

Created by the Award Winning Developers, Norm Koger & Jim Rose, **JUTLAND** breaks new ground yet again! Building on the technical success of **DISTANT GUNS**, the 3rd Generation render engine installment of **JUTLAND** dramatically expands the boundaries of 20th Century Naval Warfare in all Directions!

JUTLAND pushes the envelope of the **real time 3D military simulations** with the most realistic ballistics ever created in a commercial war-game. Every shell fired is physically introduced into the **3D Battle-Space**, where it follows a true-to-life trajectory all the way to the target. If the shell actually hits the target in the 3D world, it must then penetrate the armor of the ship's hull, deck, or turret based on the thickness at the impact point.

Storm Eagle Studios has created an unprecedented 3D naval game environment, featuring hundreds of highly detailed, historically accurate 3D WWI Battleships, Cruisers, Destroyers, and Torpedo Boats from the countries of Germany, England, and France.

JUTLAND is destined to become the **new standard for 3D Real time Naval Gaming!**

JUTLAND packs all of the essential features you would expect from **Norm Koger & Jim Rose**, the team that brought you Award Winning games since 1988 including **The Age of Rifles, West Front, Age of Sail, and The Operational Art of War**, just to name a few!

For an extensive Info Brochure with complete Feature list and screen shots click below.

NWS Northern Fleet – Falkirk East Central Scotland

Kenny Thomson, 1 Excise Lane, Kincardine, Fife, FK10 4LW, Tel: 01259 731091

e-mail: kenny.thomson@homecall.co.uk - *Website:* <http://falkirkwargamesclub.org.uk/>

Falkirk Wargames Club meets each Monday night at 7pm with a variety of games running each evening. Naval games are popular with 2 or 3 run each month. Campaign games sometimes feature in our monthly weekend sessions. Games tend to be organised week to week making a 3-month forecast here a waste of time. Please get in touch if you'd like to come along.

- Popular periods – Modern (Shipwreck), WW1 and 2 (GQ), WW2 Coastal (Action Stations), and Pre-dreadnought (P Dunn's rules)
